## EXPERIENCE

---

Cynergy Technologies – Remote

September 2021 – November 2021

### Full-Stack Web Developer

- Created an **invoicing system for subscription services** that managed monthly invoices and printed invoices to be sent to customers; increased conversion rate by 15%.
- **Worked directly with the Co-founder/CTO and a cross-functional team of 11** from 3 locations (Nigeria, Canada and Saudi Arabia), ranging from entry-level developers to team leads, and collaborated with design, social media, and operations teams.
- Built and launched **3 full-stack web applications** at the company.
- **Replaced Google Forms** as the primary data collection method on all web applications with a **custom-made solution** which included client-side pages to collect data from users, an API the form communicates with, and a server to send receipts via email.
- **Converted beautifully created UI designs** from the design team into **pixel-perfect, fully responsive websites**.
- Won **staff of the week** within 5 weeks of joining due to **strong performance and organizational impact**.

Eko-Konnect Research and Education Initiative – Lagos, Nigeria

July 2019 – March 2021

### Tech Intern

- **Programmed** a finch robot to help make **daily activities 10x faster**. Gained more knowledge on the history of the internet and its future. Installed Linux successfully on multiple computers.
- **Student Coordinator** at Eko-Konnect Research and Innovative Center.
- **Led and coordinated** fellow student interns during events, meetups and outings

## LEADERSHIP

---

Eko-Konnect Research and Education Initiative – Lagos, Nigeria

Nov. 2019 – March 2021

### Team Lead, Events and Meetup Team

- Facilitated the planning and execution of events and coding meetups for over 20+ students which helped to improve the students' programming skills.
- **Led and Coordinated** 20+ students to participate in **open-source day** at Eko-Konnect Headquarters.

## EDUCATION

---

University of Lagos – Lagos, Nigeria
